

Higher Education Institutions
& Responsible Research and Innovation

“Facilitating reflection on Responsible Research and Innovation” workshop

Brief description

In this workshop, participants will envision possible futures connected to R&I developments. They will reflect on strategies and ways how to steer these developments and their possible wider societal and environmental impacts using concepts of RRI. Then, the course will especially focus on how to integrate such reflection on issues of RRI into higher education teaching and training. Together in groups, participants will develop different approaches and designs for teaching RRI to various higher education audiences.

Learning outcomes

On completion of this workshop, participants will be able to:

1. apply concepts of Responsible Research and Innovation (RRI) to discuss the societal implications of research and innovation (R&I) developments
2. outline how to promote reflection on RRI and related issues in higher education settings.

This is a full-day workshop combining an input lecture by the course instructor with in-class group work using a case example, presentations, and plenary discussions.

Venue

Auditório Nascente da Faculdade de Engenharia - [Prédio Centenário da Escola de Engenharia](#)

Escola de Engenharia da UFRGS - Universidade Federal do Rio Grande do Sul
Porto Alegre, Brasil

Address: Praça Argentina, 9 – Centro Histórico Porto Alegre, RS, Brasil
Prédio Centenário – Prédio 11101

Date

23th January 2018, from 9h until 18h
